A Turn In the Tables

[Copyright, 1908, by American Press Association.]

My dear, what I have to tell you I would only confide to my bosom friend. A terrible blunder for which I alone am responsible has made a great change in my life. I can never think of it without horror, shame, mortification, humiliation—indeed, every frightful emotion for which there is a word in the English language. And yet I confess that this incident has brought me the most exquisite happiness, I have to announce to you, my dearest, sweetest, loveliest friend, my engagement. Bob has won my consent at last.

But I must admit that Bob took an unfair advantage of me. While I love him and feel that he is the one man to make me happy, I can never forget that he turned to his own account this frightful failure to compel me to accept him. True, I had all along intended to do so. But you know how sweet it is for a woman to have a man humble himself before her, tell her that without her he will become a wreck, implore her to have mercy upon him. All this I might have had were it not for my mistake.

I had kept Bob dangling for a year. I had given him but little hope. I confess that his pain was my pleasure. When he fretted I laughed at him, when he rebelled I assumed a haughty pose and asked by what authority he presumed to dictate to me, and never after the slightest sign of independence on his part did I restore him to favor except he came to me through the valley of humiliation.

Now, when I consider that he not only compelled me to desist from such treatment, but assumed to make conditions; when I think that he got me, so to speak, in a hole, acted in a mean, contemptible, selfish, disgusting, brutal—

But I am forgetting that I am engaged to him and love him devotedly. It is dangerous for me to give you this story, for in the telling of it I am liable to wish that I had my lover on a spit roasting him before a slow fire. However, since I must tell somebody and you are my own true, loyal friend, I will hurry through it lest my indignation get the better of me and I send Bob about his business.

You must know that Bob and Alice and Sue and Lillie and a lot of boys and girls were together on the coast. Well, we came home in the same train, making the journey in the night. Alice and I occupied a lower berth, while Sue and Lillie did the same. The boys

FEDERATION OF LABOR

HAS \$136,628 ON HAND

Report to Denver Convention Shows a Gain of \$10,000 Over Last Year—Gompers and the Socialists.

Denver, Nov. 13.—The reports from the auditing committee and of the committee on rules of order of business were made at the opening session of the American Federation of Labor yesterday.

The auditing committee showed the federation had \$136,628 on hand, a gain of over \$10,000 on last year's balance. Characterizing the participation of the American Federation of Labor, through its executive council, in the recent national campaign as a distinct victory for the Socialist cause, it is announced by that element in the federation that there will be no fight in this convention of the federation between the Socialists and their opponents. Heretofore this contest has been a leading feature of the annual meetings and President Gompers has been the mark of assault. Now the Socialists believe that a start has been made by the Federation which will bring the labor movement of the country to their party. The convention resumed its sessions yesterday morning after taking a day off to visit the Printers' Home at Colorado Springs. The program began with the addresses of the fraternal delegates from the English and Canadian labor congresses.

NOTICE BEFORE INJUNCTION.

Knights of Labor Urge Congress to Pass Such Legislation.

Washington, Nov. 13.—The Knights of Labor, in general assembly here Wednesday, adopted a resolution urging Congress to enact at its next session legislation providing that in cases investigating labor disputes, neither an injunction nor a temporary restraining order be granted except upon due notice to the opposite party. Wednesday's session was largely consumed with the work of committees.

MURRY A. VERNER ARRESTED.

Accounts of Well Known Pittsburgh Man, It Is Said, Somewhat Involved.

Pittsburgh, Pa., Nov. 13.—Murry A. Verner, until recently considered one of the city's wealthy men, and for a number of years a prominent personality in political and financial circles, was arrested Wednesday in connection with the settlement of his accounts as guardian of his nephew, Alexander L. Verner, to whom it is alleged there is due \$247,777. Besides the claim of his nephew and ward, it is charged that judgments of other creditors amounting to \$108,000 have been allowed to accumulate. Mr. Verner's attorneys announce that arrangements are being completed to satisfy all claims and that he will shortly be released and all proceedings stopped.

Mr. Verner and his associates at one time controlled a number of local street car franchises. Probably his most important enterprise was the construction of the first electric railway in Russia, a modern trolley line in St. Petersburg, which was later sold at a high profit.

GERMS IN HER SYSTEM

Every Woman Should Read This.

The number of diseases peculiar to women is such that we believe this space would hardly contain a mere mention of their names, and it is a fact that most of these diseases are of a catarrhal nature. A woman cannot be well if there is a trace of the catarrhal germs in her system.

Some women think there is no help for them. We positively declare this to be a mistaken idea. We are so sure of this that we offer to supply medicine absolutely free of all cost in every instance where it fails to give entire satisfaction or does not substantiate our claims. With this understanding, no woman should hesitate to believe our honesty of purpose, or hesitate to put our claims to a test.

There is only one way to cure catarrh. That way is through the blood. You may use all the snuffs, douches or like remedies for years without getting more than temporary relief at best. Catarrh is caused by a germ. That germ is carried by the blood to the innermost part of the system, until the mucous membrane is broken, irritation and inflammation produced, and a flow of mucous results, and you can probably realize how silly it is to attempt to cure such an ailment unless you take a medicine that follows the same course as the germ or parasite.

Resall Muc-Tone is scientifically prepared from the prescription of an eminent physician who for thirty years made his specialty catarrh, and with this medicine he averaged 98 per cent. of cures where it was employed. No other remedy is so properly designed for the ailments of women. It will purify and enrich the blood, stop nervous discharge, destroy all germ matter, remove all impurities from the system, soothe, heal and strengthen the mucous tissues, and bring about a good feeling of health and strength.

We want you to try Resall Muc-Tone as our guarantee. If you are not benefited, or for any reason not satisfied, simply tell us and we will hand back your money. Resall Muc-Tone comes in two sizes, 50c and \$1.00. Robert & Wells, the Red Cross Pharmacy, Miles granite block.

MANY CHINESE DROWN IN LAKE

Attempt to Smuggle Them Ends in Tragedy

THEIR BOATS TURN TURTLE

Launch and Rowboat Filled with Celestials Wrecked on Buffalo Breakwater—Only Four Are Rescued.

Buffalo, Nov. 13.—A wholesale attempt to smuggle Chinese into this country from Canada ended in disaster about 3:30 o'clock this morning when all but four of the party of Chinese were either drowned or dashed a piece on the rocks of the break water near the Buffalo life saving station.

Four bodies have been recovered, two are still wedged in the rocks and five are believed to be beneath the water. As yet the police have no clue to the identity of the smugglers.

At the time of the accident the men were trying to enter Buffalo harbor. There was a heavy sea at the time and the night was very dark. A lookout in the life-saving station noticed a light on the water and sounded the alarm. A lifeboat was manned and an effort was made to get to the boat displaying the light.

It was just possible for the life-savers to distinguish two boats, one a gasoline launch and the other a rowboat in tow of the launch. Both boats were filled with men, probably ten in the launch and five in the rowboat. As the lifeboat neared the other boats, the latter suddenly turned turtle.

At that time the life-savers were close to the breakwater and had to go out to sea to avoid being crushed against the stones. Before they could return the Chinese and their boats had disappeared. The boats had been smashed to splinters against the breakwater and most of the passengers had either been killed by being thrown against the wall or had been drowned.

Owing to the heavy sea which broke over the breakwater it was impossible to do anything until daylight came. Early this morning the life-savers recovered four of the bodies of the Chinese and located two others, but could not get to them on account of the sea. Four Chinese who were still alive were rescued and brought to Buffalo.

It is believed more bodies are wedged in the rocks on the lake side of the breakwater and the life-savers are now making a search for them. The bodies which were recovered were battered and bruised almost beyond recognition. The garments on the bodies, however, indicate they were Chinese. In such instance limbs were broken and skulls were crushed in like eggshells. The four who were rescued alive were in pitiable condition and the extent of their injuries is not known yet.

MORSE IS A PUZZLE TO HIS KEEPERS

Convicted Banker Sleeps Well, Eats But Sparingly and Is Aggressive—Will Stay in the Tombs.

New York, Nov. 13.—With apparent indifference, Charles W. Morse, the convicted banker and ice king, wound up his seventh night in the Tombs, and arose from his iron cot yesterday with the same grim demeanor that has marked his course during his incarceration.

Morse is like an anchorite in his solitude, but when his lawyers appear on the scene he is the man of the world, sharp, aggressive and strategic. When his wife and two boys call, his cold reserve disappears and he seems to be the man of family and affection. His demeanor puzzles his keepers. They are getting over their surprise at his reticence and apparent disregard for the little things that ameliorate prison conditions and might be had for the asking. Deputy Warden John Hanley says that Morse is the only prisoner in the line of prisoners that even came to his surveillance. He sleeps well, eats sparingly and thinks and thinks. That is his program for each 24 hours.

RUSH MONEY TO TREASURY.

Prompt Move on Three Per Cent. Certificates.

Washington, Nov. 13.—Prompt response has been made by the banks of the country to the notification by the treasury department, Tuesday, of the maturity Nov. 20 of the \$14,000,000 of three per cent. certificates issued about a year ago to assist in the increase of bank circulation. About three million dollars was received in the treasury yesterday and at noon today the amount had reached \$5,583,000. It is estimated by the department that by means of the settlement thus instituted the government will get the use of between nine and ten million dollars, and this, with the cash balance of about twenty-two millions now in the treasury, will be sufficient for present purposes and obviate the necessity of a call upon government deposits, which now amount to about \$118,000,000. The process of redemption is slow and the money thus accruing will not be used up in the retirement of circulation authorized by the banks for several weeks, thus giving opportunity to maintain the supply of government funds from other sources.

MISUSE OF MAILS ALLEGED.

Five Men, Formerly Connected with Central Mining & Development Co.

Kansas City, Mo., Nov. 13.—On a charge of using the mails with intent to defraud, five men formerly connected with the Central Mining & Development company, capitalized at \$10,000,000, were indicted by the federal grand jury Wednesday. They are: Raymond P. May, president of the Southern Development company; E. R. Hearn, president of the Keystone Securities company; Frank H. Moran, mining broker; S. H. Wolder, former insurance commissioner of Kansas and former president of the Central Mining & Development company.

EXPLOSION KILLS 30

Many Rescued but 250 Believed to be Doomed

IN A WESTPHALIA MINE

Fire Adds to the Horror—Catastrophe Occurs in Big Colliery, Where 400 Men Were at Work Under Ground.

Hamm, Westphalia, Germany, Nov. 13.—There was an explosion of fire-damp in the Radbod mine yesterday morning which probably will result in very heavy loss of life. Already thirty-five bodies have been brought to the surface, and 300 men are still under ground in grave peril.

Four hundred men were working in the pit at the time of the disaster. About seventy of them have been brought to the surface. Of these a majority are more or less injured, and one has since died. One hundred and fifty men are in shaft No. 2, and it is believed that they are all doomed.

Rescuers arrived from all directions and the work of getting below was at once organized. These efforts, however, were seriously hampered by the extreme difficulty. One of the shafts, together with its elevator cage, has been completely burned out. An improvised cage was sent down with a corps of rescuers, who made heroic efforts to reach their comrades.

At 1 o'clock the fire had made such headway that the rescuers had to be called back to give way to the fire fighters, and the flames are still spreading. The vicinity of the mine is surrounded by police, and the public is not permitted to approach. Despairing scenes are being witnessed among the crowds of relatives who have gathered outside the police cordon.

The violence of the explosion caused the walls of the galleries to fall in. A salvage corps, armed with apparatus to supply each man with oxygen, is now endeavoring to penetrate the mine. These are the same men who went over to Courieres, France, in March of 1908, and rendered such valuable aid in the frightful mine disaster there.

Thinking Alike.

He—When we are married we must both think alike.
She—Yes; but I'll think first.—English Society.

ONE MAN KILLED AND 35 HURT IN EXPLOSION

Powder Plant Near Kansas City Blows Up While Train Is Nearby and the Passengers Are Injured.

Kansas City, Mo., Nov. 13.—An explosion in the glazing room of the Excelsior Powder company at Dodson, 10 miles south of Kansas City, yesterday wrecked that part of the plant and injured a number of passengers on a Kansas City southern passenger train bound for Kansas City and standing on the tracks near by.

An employee of the powder works was killed. Nearly all the injured, 35 in number, were on the train. The train was not badly damaged. The wounds of those injured, with the exception of one person, are slight.

Arrangements were promptly made to bring the dead man and the injured passengers into Kansas City.

It was at first reported that the train had been blown from the track, but this proved an error.

The dead man is Herman Kline, engineer of the glazing house. The most seriously hurt is Mrs. J. R. McDermott of Fort Scott, Kan. Her injuries are not considered fatal.

No one can explain how the explosion occurred. The main plant was not damaged.

ARIVING WIDOW GETS \$100,000.

Woman 81 Years Old Receives Estate After Will Forging Plot Is Exposed.

Trenton, N. J., Nov. 13.—Through an order filed in the chancery court yesterday by Attorney General McCarter and signed by Vice-Chancellor Walker, Mrs. Mary Wheeler Somerby, eighty-one years old and a widow in destitute circumstances, living at Newburyport, Mass., is declared to be the sole heir to an estate valued at \$100,000.

The testator was John Wells Russell, who died November 28, 1907, without making any provisions in his will for a beneficiary. His estate at the time of his death was variously estimated at from \$75,000 to \$125,000 in East Orange.

Shortly after his death proceedings were instituted to have his estate go to the state by escheat, with the result that a decision was reached that Russell had left no heirs and that the estate should escheat to the state. During these proceedings, however, an alleged forged will of the testator was produced. Under the terms of his will the entire estate was bequeathed to Mary C. Calvin, who had been housekeeper for Mr. Russell at his East Orange home. The introduction of this will resulted in the conviction of Matthew J. Ready, a lawyer of Newark.

It was subsequently learned that conclusive documentary evidence proving the claim of Mrs. Somerby had been concealed. It was through the efforts of Mr. McCarter that Mrs. Somerby's claim was recognized.

PUT KAISER ON NEW SPIT

Bundesrath Committee Meets In Secrete Session

TO PUT CURB ON HIS ACTION

Princes of States Aroused—Wilhelm Must No Longer Pursue Independent Foreign Policy, the Leaders Declare.

Berlin, Nov. 13.—The meeting in Berlin yesterday of the foreign affairs committee of the Bundesrath, or Federal Council, is attracting great interest.

The circumstances preceding the assembling of this committee—a most unusual step, gave rise to the inference that the meeting had been called to take some action with the idea of preventing Emperor William from pursuing an independent course in the foreign affairs of the empire, as well as from publicly indicating a personal policy differing from that of his government.

The ministers-presidents of the Bavarian, Wuertemberg, and Saxon delegations to the council—the Bundesrath represents the individual states of the empire as the Reichstag represents the German nation—arrived here a few days ago. The assembling of the committee had come to be an almost forgotten feature of the constitutional institutions of the German empire, and it was for this reason that so much speculation attaches to the extraordinary proceedings.

It is understood that the meeting was called at the instance of Bavaria, whose minister president, Baron von Podewitz, would therefore preside at the sitting. According to newspaper statements Luitpold, the prince regent of Bavaria, is intensely exasperated because of Emperor William's latest venture into foreign politics; in other words, the publication of the London Telegraph interview, an act which has resulted in a degree of criticism of his majesty for the last two days in the Reichstag never before equalled.

Consequently, Bavaria took the initiative in summoning the committee. No official statement as to the purposes of the meeting can be had, and great secrecy is being observed regarding the entire matter.

NERVOUS DYSPEPSIA

A Chicago Woman Tells How the Tonic Treatment with Dr. Williams' Pink Pills Cured Her.

The processes of digestion are controlled by the blood and nerves. That is why the tonic treatment, by which the blood is built up, has cured so many cases of stubborn stomach trouble.

Many people are suffering daily from stomach trouble because they cling to old-fashioned methods, eat indigestible foods and in other ways aggravate the disorder they seek to cure. But prejudice must give way before proof such as this statement by Miss S. A. McCarty, of 6028 South Greenstreet, Chicago, Ill., who says:

"I suffered for four years with indigestion which I think was brought on by overwork and nervousness. My stomach was in such bad shape that as soon as I ate anything I would be distressed, have pains and my stomach would become sour. No kind of food seemed to agree with me.

"I went to a specialist for several months but he did not help me so I tried Dr. Williams' Pink Pills upon the advice of my sister. They soon helped me and I took them steadily for quite a while. My indigestion gradually disappeared, until in time I was able to eat and digest any kind of food, gained in flesh and strength and have not been troubled with nervousness since."

Dr. Williams' Pink Pills are guaranteed to be safe and harmless to the most delicate constitution. They contain no morphine, opiate, narcotic, nor anything to cause a drug habit. They do not act on the bowels but they actually make new blood and strengthen the nerves. If you want good health you must have good blood. Bad blood is the root of all common diseases, like anemia, rheumatism, sciatica, neuralgia, St. Vitus' dance, nervousness, indigestion, debility, general weakness, paralysis, locomotor ataxia and the special ailments that only women-folk know.

A helpful booklet, "What to Eat and How to Eat," containing information regarding diet, free on request.

Every dyspeptic should have a copy of our free diet book. Dr. Williams' Pink Pills are sold by all druggists, or by mail, postpaid, at 50 cents per box; six boxes, \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

SENTENCED FOR TWAIN BURGLARY

Hoffman and Williams Change Their Pleas to Guilty.

Danbury, Conn., Nov. 13.—The trial of Charles Hoffman and Henry Williams, charged with burglary at the home of Samuel W. Clements' (Mark Twain) at Redding last September, came to a sudden close late Wednesday afternoon, when the prisoners through their counsel changed their pleas of not guilty to guilty to a charge of assault with intent to kill. The court then sentenced Hoffman to state prison for not less than three years nor more than five, and Williams on the burglary charge for not less than five nor more than six years, and on the other accusation against him, to not more than four years.

READY TO PUSH STANDARD CASE

Bonaparte Studying Government Application for Writ of Certiorari.

Washington, Nov. 13.—As the result of a conference at the department of justice yesterday, participated in by the attorney general, Frank B. Kellogg, District Attorney Sims of Chicago, and the latter's assistant, Mr. Wilkerson, application for a writ of certiorari in the United States supreme court in the Standard Oil rebate case, which resulted in the \$20,000,000 fine, will be made next Monday.

This is the only course left to the government to obtain a review of the case. The papers are prepared, and Mr. Bonaparte is going over them.

TURN PRISONER LOOSE.

Accused Theatre Manager Flees to the Hills.

Missoula, Mont., Nov. 13.—A Green, manager of the Arcade theatre at Taft, Mont., in which Wednesday's disastrous fire started, was arrested that night, charged with arson. Later, with the avowed purpose of lynching Green, a crowd of excited citizens made a demonstration at the jail.

Fearing the building would not withstand an attack, he was hastily released and told to secret himself. He presumably fled to the hills.
